“ I grew up down the street from the Finney's and was at their home often. Margaret was an excellent cook and I was always hungry. I would open the fridge and look for something good to eat. My favorite was her mashed potatoes. Margaret would see the finger print in the mashed potatoes and scold me for it. I'm going to miss you Margaret.

“ I am saddened to hear of Margaret's passing. We worked together at the Health Department for many years in the Air Quality section. She was a great Co-worker and checked how I was doing after her retirement. You will be missed by many.Russ and Molly Hadan

“ I am deeply saddened about the loss of Margaret. I had the pleasure to work with her at the Health Department for a number of years and have fond memories of her. We have a picture of her along with the others who worked at the lab back in 2008 up on our wall at the office and I think of of her and those times when she was working here often. My deepest sympathies,Chrissy

“ I had the privilege of working with Maggie at Allied Chemical. What a joy it was to share our good times and sometimes not so great events of living. She was such an intelligent, vivacious co- worker and trusted friend. I,m sure she was an intensely loving, caring mother and companion. Got to meet First daughter Dua at the pharmacy in Glenwood. My sympathy to her entire family. Will always cherish her memory.

“ My condolences to Margaret's family. I knew her through her work at DCHD air monitoring. She was a great conversationist, with a lot of character. We exchanged stories and barbs, all in good fun. She will be missed. Deepest sympathy to her family Jim Yeggy
