MM

“ Dear Georgia, I was at a crossroads in my professional career as to the best way to completely care for patients when I first met you as a member of your care team, particularly how to better serve those who needed my services.

You trusted me to care for you over the years, that experience provided me a blue print. I learned a lot from you and years into taking care of you, you shared with me you worked in health care and that you were a retired nurse.

You and your family have been a constant source of support and your unwavering confidence in me as a member of your care team when I visited you at home and your routine visits to my clinic will forever be remembered.

I will not forget you.

With amazing grace of our dear Lord, Georgia, Rest In Peace.
