“ *He was always like a brother to me. We would wrestle on the trampoline and we made up a game called trampoline dodgeball. He would always take me to the pool in platsmouth. We would play outside like football, basketball, soccer, baseball.*

“ *The days where I would go over and hang out with Jacob with Justin and Josh and others, we'd play video games and play basketball and football. They saved me from being hopeless at basketball, and I'll always remember the great times he gave.*

“ *The first time you came to my house, the first thing that came out of my was good lord you have some big feet! Ever since that first time you came home with Tyler, you became part of our family. You spent so many days and nights at our house and there were times I would ask, if your mom was okay staying days and even weeks. You were always welcome and my door was always open for you, which was why you had the garage code. I will never forget how excited you sounded when you told me that you do it and I was like did what?! You started laughing and you had told me that you graduated! I was so happy and proud of you. I know that was one thing you worked so hard to accomplish. It was never a dull moment around my house when you were around and your smile was always so contagious. You are going to be deeply missed, but you will never be forgotten.*
