“ I will miss our conversations we had with each other. I gained confidence in your ability to reach a woodworking solution that I had from time to time. I even dubbed you my “Master Craftsman Mentor”. You gave me an embarassed look, but I really meant it. I have other questions to throw at you but they must wait for another time. If I can figure out a solution, maybe it will be because I am having another conversation with my good friend and mentor.
