“ Condolences from his bayou running buddies! Discussions of Bobby start with a broken heart- but quickly shift to laughter and warm memories! We had him in the young years- growing up with endless antics. From playing marbles in grade school until he left for California at around 20? What a spirit he had! He was confident on Prom night! His passing is one that makes us realize how fleeting life is. There's nothing so fragile as happiness- he was greatly loved and will be sorely missed! Avery Munson
